

# Corel Painter

## The Artist Within

Course Number: 8  
Level: Basic to Intermediate

Jim Cunningham  
Little Rock, Arkansas  
501-225-5324  
jim@jecunningham.com  
painterportraits.com

There is a frustrated artist inside all of us and Painter gives us the ability to release that creative side that has been trapped for so many years. Jim will take you step by step through the creative process, from getting familiar with the Painter desktop to creating knockout images, to the marketing process. You will be amazed at how quickly you will be creating images that your customers will want hanging on their walls.

Each of us has images that can become beautiful works of art with the right enhancement. Jim will show you the techniques that will make your images stand out in the crowd. Each student is encouraged to bring at least 5 of their own images to work on in class.

This workshop is for Portrait and Wedding Photographers who want to transform their images into works of art. Jim is a full time Photographer who feels that Painter has given us the ability to take our photographic images to the next level.

Join Jim and unleash your inner artist. Learn to work outside the box with someone who spends hours a day creating with Painter.

### The workshop will cover:

- Getting familiar with Painter.
- How to paint faces and eyes that will take customer's breath away.
- Creating a watercolor print.
- Creating an oil painted look.
- Pastel Portraits and Prints.
- Fine Art Landscapes.
- Marketing your Images.

With a degree in Marketing from the University of Arkansas at Little Rock, Jim has been a photographer in Little Rock since 1976, and has owned his own studio since 1983. Recipient of 9 Kodak Gallery Awards and 4 Fuji Masterpiece Awards, Jim has spoken at state and regional conventions and was a speaker at the PPA National Convention. Since 2001, Jim has been teaching Photoshop and Painter workshops. Jim has been working with digital imaging for 11 years, and feels that digital imaging gives the photographer the ability to create what we see in our mind's eye.
