Pin Up and Retro in the world of Boudoir; Seniors to Young Professionals in vogue and Sexy Couture Bridal” This one week school is designed as an intensive precursor to three individual programs under the three distinct headings.

- Pin Up and Retro in the world of Boudoir Photography
- Seniors to Young Professionals in vogue
- Sexy Couture Bridal

Pin Up and Retro in the world of Boudoir Photography  
It cannot be argued that women of many shapes and sizes feel less comfortable with their bodies as the years advance. To be photographed in nothing more than their underwear and often less is a less than comfortable experience in other than the hands of the best female practitioners. Even women who are comfortable may have certain ‘issues’ with traditional boudoir photography.

It is unquestionable that there are some superb exponents of ‘Boudoir’ photography as we know it and many modern marketing takes, continue to make this a popular sector of our industry. But to make this genre accessible to a growing audience, perhaps a new or re-worked twist is needed?

Hence, “Pin Up & Retro” provide two viable options, so here it is, my first intensive training program to help you meet the needs of this fun, creative and challenging medium.

The ‘FASHION FOTO FACTORY’ or How to shoot Seniors to Young Professionals in vogue

Once in a while we are all looking for some kind of innovation to simply make a difference in a universal market, and if possible, expand it. The FASHION FOTO FACTORY is all about creating “Iconic Images” and is a proven concept that can grow your business and add a fresh, exciting and contemporary edge to keep your enthusiasm for photography alive and provide much needed profits in any economy.

Sexy Couture Bridal

Does your wedding photography need a makeover? Feeling a little out of date? Looking for a new approach? Want to compete with the ‘In Crowd’ or new generation of photographers? Then this is the ideal course for you!
