

Eat, Sleep, Breath

Digital Photography

Course Number: 35
Level: Advanced

David Ziser
Edgewood, Kentucky
859-341-5900
davidziser.com

David's workshops always receive "rave reviews." You will eat, sleep, and breath Digital Photography for 4½ days.

This program is jam-packed with information on lighting, photography, and composition and will show you how to create that dramatic image on location. David will walk you through a location looking for the leading lines and interesting compositional elements that he'll use to create the final image. This class is an exercise in learning to see differently and more creatively before you ever push the shutter button. David's programs are fast paced, jammed packed with information, and always entertaining.

- World class photography including over 40 On/Off camera flash techniques, sensible lighting & posing, dramatic composition.
- Two days of shooting - watch how David mentally leads you through his creative thought process and visual analysis of the scene to create the dramatic image.
- And-yes-you will be able to create and use your images that you make at the workshop in your own personal portfolio! What better way to ramp up your samples for your upcoming weddings?
- Print Critiques - you submit the images and we will spend time reviewing them and offering constructive comments on how they may be improved and enhanced.
- Studio Life - This is a brand new concept that will introduce you to just how we do things at David A. Ziser Photography. How to build client relationships, process their orders with our favorite software tools, and move their orders through our studio.

This educational experience is the most exciting and complete digital workshop being offered anywhere.

David's runaway best-selling book, "Captured By The Light" has been called "... probably the best book on wedding photography ever!" by Digital Wedding Forum and has been getting "rave reviews" since it was released in February 2011. It went into its second printing only 4 weeks later! In 2009 David presented his Digital WakeUp Call seminar series to 10,000 photographers nationwide. It was hailed as the best digital photography seminar of the year. David has shared his knowledge with tens of thousands of Photographers in five languages and in 14 countries worldwide.
